(a) Hardship disparity, × oracle
(b) True-crime coverage
Greedy oracle (reference)
Uniform
Random
PredPol (EWMA)
Random forest
Best fixed rule, true cov.
Best fixed rule, recorded cov.
PPO (naive)
PPO, sees true crime
PPO, rewarded on true crime
PPO, sees + rewarded on true crime

Disparity relative to the greedy oracle (log scale)
dot = mean, bar = 95% CI, small dots = single training seeds
True-crime coverage (%)
